WASHINGTON LIFE INSURANCE CO.

OF NEW YORK.

ASSETS, \$16,250,000.

W. A. BREWER, JR.,
PRESIDENT.

G. H. BREWER,
SECRETARY.

THE Forty-first Annual Statement of THE WASHINGTON advances the Company along the lines of real progress in every essential detail of its great and rapidly increasing business fully equal to any year in its history.

The solidity of the Company's invested assets, admitting of neither expansion nor contraction, but measured dollar for dollar by the severest standard of coin value, furnishes the best possible assurance of the intrinsic worth of its policies, and be they Life, Endowment, Combination or Gold Bond, they are always on a parity with the very best.

The Company has paid to policy-holders since organization, \$35,537,705 76, and holds invested assets \$16,178,374.49. Of the latter sum over a million one hundred and forty-two Thousand Dollars have been loaned to the holders of its policies. The sums paid to the insured together with substantial securities, held for their benefit, aggregate \$51,716,080.25.

The business statement of the year summarized shows that the Company paid \$1,913,716.97 to policy holders. The record of the year also shows about \$4,000,000 of insurance gained; notable gains in assets, in income, in surplus, and volume of business. The amount insured being \$61,083,689.00.

Its liberal and just treatment personally of individuals by prompt payment of claims, dividends and surrender values, abundantly sustains a reputation for which this Company has always been conspicuous.

The unhesitating readiness of THE WASHINGTON to grant loans on its policies, has proved of incalculable value in preventing the loss of the insurance. The knowledge of these essential truths has convinced the public that good insurance may be had and where to get it.

**GRAND TRUNK NEW SINGLE ARCH DOUBLE TRACK STEEL BRIDGE
OVER THE NIAGARA RIVER.**

The new bridge is a single steel arch of 550 feet in length, supplemented by a truss span, at either end, of 115 feet in length. This with the approaches, makes the total length of the bridge slightly over 1,100 feet. The railway tracks surmounting the bridge are 252 feet above the water. The bridge has two decks or floors. On the upper floor there are two tracks for railway purposes exclusively, while the lower floor contains a wide central carriageway, double electric railway tracks, and on either side passage-way for pedestrians.

As an evidence of the enormous strength of this beautiful structure, the arch is designed to carry on each railway track a load of two locomotives with four pairs of drivers each and 10,000 pounds on each pair, followed by a train of 3,500 pounds per running foot, and is designed to carry in addition a live load of 3,000 pounds per running foot on the lower floor. The general public will, however, probably be better able to arrive at a correct understanding of the enormous sustaining power of the new bridge, by the fact that it is calculated to sustain a weight of something over six times the sustaining capacity of the historic Suspension Bridge, which it replaces.

Introductory

OFFICE CITY DIRECTORY
NOVEMBER 12, 1901

WITH this, our tenth annual directory of Des Moines we feel that we are furnishing, not only the most complete and accurate work of its character ever compiled in this city, but a publication that is fully in keeping with the rapid developement that has characterized all the departments, commercial and otherwise, of the best city in the best state in the union, during the eventful year now drawing to a close. In no year in its history has Des Moines expanded so much in population, manufacturing and in its commercial life. New mercantile institutions of great credit to the city have been established, jobbing houses in several lines have been opened, and a large number of labor employing factories, ranging from those of small capital to one of the largest packing concerns in the west, have taken advantage of the city's superior railroad facilities and cheap fuel and staked their all on the city's future.

This volume evidences the rapid growth and developement of the city in more ways than one but probably more by the increased number of addresses given. This volume contains 36,800 names and addresses, an increase of 1,149 in the year. Deducting five per cent., this at the usual ratio, for duplicates, etc., and multiplying by 2½, the accepted multiple, and it will be seen Des Moines has a population of 87,400, a gain of 3,440 in the year.

Probably no other medium so fully demonstrates the advancement and commercial greatness of a city, than does a directory. It is more than a catalogue of addresses, it is a startling reflection of the city's progress and development from an examination of which those seeking to invest or for a location can quickly arrive at an estimate of the city's worth, attractiveness etc.

It is with pleasure that we offer this volume to our patrons and the public because of our confidence in its completeness and accuracy of detail.

We wish to express our appreciation of the co-operation extended to us by the citizens in giving accurate information and extending courteous treatment to our canvassers while collecting the data for this work.

STREET AND AVENUE GUIDE.

EXPLANATION.

IN ARRANGING "The Street and Avenue Guide" for the City of Des Moines, the following plan has been adopted (and approved by the City Engineer): All streets on the west side of the Des Moines river have been designated by the same name or number alone, abolishing the prefix of west except in the case of numbered streets south of Vine; for example: Walnut, Vine, Grand av., Locust. In the case of the numbered streets, all north of Vine are designated as 1st, 2d, 4th, etc., and south of Vine, w so 1st, w so 2d, w so 3d, etc. Streets east of the Des Moines river which run through to the west side of and beyond the river are designated as e Vine, e Court av., e Walnut, e Locust, etc.; the numbered streets north of Vine as e 1st, e 2d, e 3d, e 4th, etc., and south of Vine as e so 1st, e so 2d, e so 3d, etc. Streets on either side of the Des Moines river which do not run through from west to east Des Moines, are designated by their names without any prefix; for example: Maple, Buchanan, School, University, etc. If located south of the Raccoon river, the name of the street is followed by (S D M); if north of the Des Moines river (Highland Park).

The following abbreviations are used: Av for avenue, al for alley, bet for between, boul for boulevard, D M for Des Moines, n for north, rd for road, s for south, w for west, e for east, nw for northwest, sw for southwest, junct for junction, opp for opposite, dr for drive.

Following the description of each street or avenue will be found the names of intersecting streets, in the order of their intersection.

The streets as located follow in alphabetical order, with the streets that intersect.

Seventh Revised Edition.

POLK'S MEDICAL AND SURGICAL REGISTER

OF THE UNITED STATES AND CANADA.

(2500 pages, 6x9 inches. Substantially bound.)

This is Positively the Only National Medical Directory Published.

Embraces names of over 130,000 Physicians, with college of graduation, list of Medical Colleges, Societies, Boards of Health, Medical Journals, Mineral Springs, Hospitals, Sanitariums, Asylums and other Medical Institutions; also Medical Laws of each State.

From Aetna Life Insurance Company, Medical Department, Hartford, Conn.

We would be willing to pay more for it if we could have it oftener. * * * We notice from time to time an error, but suppose that that can hardly be obviated in a work so large. We think physicians are going to be more particular to see that they answer inquiries regarding graduation, etc. We have refused to consider many during the past few years because their names were not in the Register, and if so, their record was not complete.

Physicians who have not given their names to canvassers for insertion in the REGISTER, are requested to send them to R. L. Polk & Co., Detroit, Mich., immediately.

SUBSCRIPTION PRICE, PER COPY, \$10.00.

"Want" a Single Unit on the top of your desk —

Is Your Business Growing?

GROWING BUSINESS demands a growing filing system, one that meets requirements at all stages of the business, that is never too large or too small, but always just right. In the smallest office a filing cabinet for letters and business papers is imperative. It promotes system, facilitates reference, helps to success.

Begin right, the logical commencement of a filing system is the GLOBE-WERNICKE ELASTIC CABINET, a system of units, just the number and kind for present needs. No great expense at any one time — you see — and you have a perfect filing system which is always complete but never finished. We are distributing agents for Iowa. A card from you will bring a copy of "A Growing Proposition," a bright little booklet full of interest for business men. We want to put the Globe Wernicke labor-saving device "at your service."

Ask for Catalogs —
 1. G.W. Elastic Cabinets.
 2. G.W. Card Index System.
 3. Filing System for Banks.
 4. Card Ledger Systems.

And it begins to "grow" with your business — just as you need just what you need.

THE state does not afford a better location. State and city libraries; state, city and federal offices; parks, churches, societies and conventions all offer advantages to students. The University has made remarkable growth under broad and vigorous management. The records give the attendance for the first year, 270; fifth year, 395; tenth year, 837; fifteenth year, 991; twentieth year, 1764.

In the past few years the departments of Pharmacy, Business, Music, Medicine and Law previously associated under contract with the University have come under complete and direct control. The University must now bear full responsibility for the work of its various departments. The Dental is the only department remaining under terms of affiliation.

ADVANTAGES OF OUR SYSTEM

Perpetual

Dispenses with the annual transfer of ledgers. Once opened no further extra labor of the bookkeeper is required.

All Items of an Account

Are kept together, no matter what length of time the account covers, or how active it may be.

Live Accounts Only

Are retained in the Current Ledger. All filled leaves and closed accounts are filed in Transfer Ledger.

Quick Reference

The index being distributed through the book admits of locating the accounts much more rapidly. No separate index necessary.

Saves Time Posting and Balancing

As only open accounts are dealt with, and these are all properly arranged and their position is always the same.

Arrangement of Accounts

Can be had as to locality, by states or salesman's territory, in alphabetical order, as to time of opening, or activity.

No Spacing Necessary

Each account is given a separate leaf. Active accounts can therefore have unlimited space.

Less Liability for Error

Accounts are more surely located, and with one account on each leaf the proper space is readily found.

Expansive

It admits of insertion of new accounts from time to time in proper place without disturbing any other.

Easily Handled

As both sides of the leaf are used for each account, a much smaller sized book can be used.

Facility

One or a dozen persons can work on the books at one time in taking off statements or posting or balancing.

Convenience

Of having a customer's account all together, saving time of bookkeeper looking through a lot of old ledgers.

Simplicity

A trial balance is more readily taken off. Tabulation or abstract is simplified and systematized.

Adaptability

Any business of any size, or any sudden change in activity, as well as any arrangement necessary, can be accommodated.

Economy

In every case it costs far less in the long run—less in material, less in time, less in labor.

OVER 16,000 BOOKKEEPERS NOW USING OUR LEDGERS TESTIFY TO THESE POINTS OF SUPERIORITY.

BAKER-VAWTER COMPANY

SPECIAL LOOSE LEAF SYSTEMS

For the Purchasing Department

Requisition Order Systems in Manifold, Quotation Record, Cost Book, Purchase Record, Stock Report, Perpetual Invoice Filing System.

By the use of a number of these systems in combination, we not only accomplish what you now secure with your present methods, but in addition we give you an absolute check and instant reference as to goods ordered, en route and received; instant and accurate information as to the amounts owing; absolute certainty that accounts are correct, as you work with the O. K.'d invoice itself, and not with figures three or four times transferred from the original invoices; the assembling of all invoices for any one firm in one place; an absolutely flexible system that will work just as well with 50 as 5,000 accounts, which will save 25 to 50 per cent. of the amount of work done at present.

For the Sales Department

Order Blank System, Binders, Holders and Blanks; Manifold Order Books and Blocks.

We can create an Order System, suitable to any business, whereby the original order can be used for filling, shipping, billing and charging the order, and thereby eliminate all journalizing of sales.

Billing and Charging System.

Adapted to most any business — an invoice and journal entry being made at one writing.

Can be used either for typewriter or hand writing; produces an exact copy of every invoice.

Salesmen's Price Books, Route and Expense Reports, Advertising Information Reports.

For the Shipping Department

Safety Manifold Shipping and City Delivery Receipts and Books.

By the use of which errors in shipment are prevented and all possibility of loss through miscarriage eliminated.

For the Accounting Department

In this department we offer the greatest labor-saving systems known to accountants. We can create for any mercantile or manufacturing business a complete system on the loose leaf plan whereby a daily statement of the condition of the business can be procured as soon as the day's posting is done, making a monthly trial balance unnecessary.

Perpetual Ledgers — General Sales and Creditors.

Perpetual Trial Balance and Proof Books, Journal, Cash and Other Auxiliary Books.

On the loose leaf plan facilitate, to a great degree, the work of the accountant. We also furnish

Bills Payable and Receivable Forms, Voucher Systems, Check Registers,

Pocket Ledgers and Collection Reports.

Monthly Statement System.

Especially adapted to a credit business where an itemized statement is issued. By this system we save all itemizing in the ledger. It has many other commendable features.

Inventory System.

By which any number of clerks can work upon an inventory at one time without the necessity of rewriting.

For the Manufacturing Department

We devise Special Factory Order Systems, Cost, Material and Labor Records, Time and Pay Roll Records, etc.

Factory cost accounting is one of our specialties, and we can provide a system by which an accurate account can be kept of all material, labor and expense, showing actual cost of each article produced.

For Banks

Loose Leaf Systems have become generally recognized as especially suitable for Commercial and Savings Banks, and have been universally adopted for

General, Individual and Liability Ledgers, Journals, Receiving Tellers' Reports, Clearing House Reports, Discount Registers and Ticklers, Check and Draft Registers, Collection Registers and Ticklers, Minute and Signature Books.

Our Silicate Daily Balance Book offers many advantages over any other system of daily balancing. We have also devised many useful manifold forms for the Collection Department, saving time and labor.

IF YOU WANT THE MOST MODERN, UP-TO-DATE METHODS OF ACCOUNTING, LET US SYSTEMIZE YOUR BUSINESS.

**FACTORIES: CHICAGO; ATCHISON, KANSAS

Has no long and unsightly posts projecting to catch on everything and be in the way.

Can be opened and expanded to receive leaves without removing the cover.

It is equipped with one-half and six one-inch sections for each post.

It is particularly adapted for filing records of any kind that require indefinite expansion.

PATENTED MARCH 17, 1892. DECEMBER 19, 1899.

Securely Locked by mechanism in top cover.
Key-hole shown in lower left hand corner of cut.

The Best Ten-Center Made. All Havana.

This Cigar has been on the market as a Ten-cent Cigar for 23 years, and it is still the same as when started. I do not use seed filler and call it Havana: Smoke the HAWKEYE and you always get your money's worth.

*... If in ill health it will be
wise to do so. It cures where
all other methods have failed*

THE THERMAL BATH is the quickest, easiest, and most effective means for
purifying the blood known to man.

We are graduated in Osteopathy and Electro-Therapeutics. Our Electric
Equipment is Complete. The merits of Osteopathy are too well known to need
comment. By combining these three methods we can cure all curable diseases in
the least possible time.

Among the diseases which have been successfully treated by us are Rheuma-
tism, Gout, Kidney and Liver Troubles, Skin Diseases, Obesity, Catarrh, Female
Troubles, Gall Stones, Goitre, Tuberculous Hips, Throat (and Lungs in early
stages), Dropsy, Chronic Throat Troubles, Spinal Curvature, all troubles aris-
ing from poor circulation or impure blood, as well as diseases of nervous origin.

We have cured fully 95 per cent of all cases who have given us a fair trial.

U. S. Patent Office,*

SEARCH THE RECORD

A search in patent business is like an investigation in buying a farm. In nine out of ten cases, honestly made, a search of the patent records will save waste of money. Total cost of U. S. Patents \$25.00 and up, according to kind and work involved. Write to-day explaining your invention.

NOTE:—I solicit the important and complicated work of leading manufacturers. Write for "What they say."
